- Dual function KVMP-USB switch
- One console controls 2 computers
- Independent (asynchronous) switching of KVM and peripheral USB / Audio ports
- Fully compliant with the USB 1.1 specification - supports transfer rates of up to 12 Mbps
- DVI digital and analog monitor support - fully compliant with the DVI specifications
- Computer selection via front panel switches and hotkeys
- LED display for easy status monitoring
- Auto Scan Mode for monitoring all computers
- Complete keyboard emulation for error free booting
- Superior Video quality - 1600 x 1200 DDC2B
- Easy installation
- Hot pluggable - add or remove computers for maintenance without powering down the switch
- Supports Windows and Mac host systems

Miniview Symphony Multi-Function 4-Port KVM Switch

4-Port KVM Switch / USB 2.0 Peripherals / Networking / Audio

IOGear's Symphony multi-function 4-port KVM Switch represents the new wave in KVM technology. The Symphony allows you to control four computers using a single VGA monitor, USB keyboard and mouse. In addition, it has a built-in USB 2.0 Hub, Ethernet 10/100 switch and audio sharing capabilities.

With it's built in USB 2.0 High Speed hub, slow transfer rates are a thing of the past. Fully compatible with USB 2.0 standards, this KVM allows you to share your USB peripherals and transfer data at up to 480 Mbps. In addition, the audio ports allow you to connect one set of speakers and microphone, and share them among your computers.

To complement your KVM setup, IOGear's Symphony KVM sports a full-featured Ethernet 10/100 switch. This built-in Ethernet switch allows you to easily network and share internet with your computers. Among its many features, it supports auto-sensing, 10/100 Mbps speed and is fully compliant with 802.3 networking standard.

GCS1774
\$315.00

- Four 6 ft (1.8m) cables included
- Multi-function USB KVM switch integrates a USB 2.0 Hub, Ethernet Switch and audio
- Controls four computers with a single VGA monitor, USB keyboard and mouse
- Built-in USB 2.0 peripheral sharing to share printers, scanners, hard drives, tec. with data transfer rates of up to 480 Mbps.
- Built in 5 port 10/100 Mbps Ethernet switch allows you to easily network and share internet with your computers
- Share one set of speakers with all your computers
- Independent switching of KVM, USB peripherals, and audio focus
- Port selection via Hotkeys and front push-buttons
- Auto scan mode for monitoring all computers
- Power on detection - automatically switches to the first powered on port
- ^a Superior video quality - up to 2048 x 1536
- Firmware upgradeable
- Easy Installation - no software required
- Keyboard and mouse emulation for error-free boot up
- Hot pluggable - add or remove computers without powering down the switch
- Compatible with multiple operating platforms (PC, MAC, and Sun)
